

# MAKING ADDITIVE EASIER

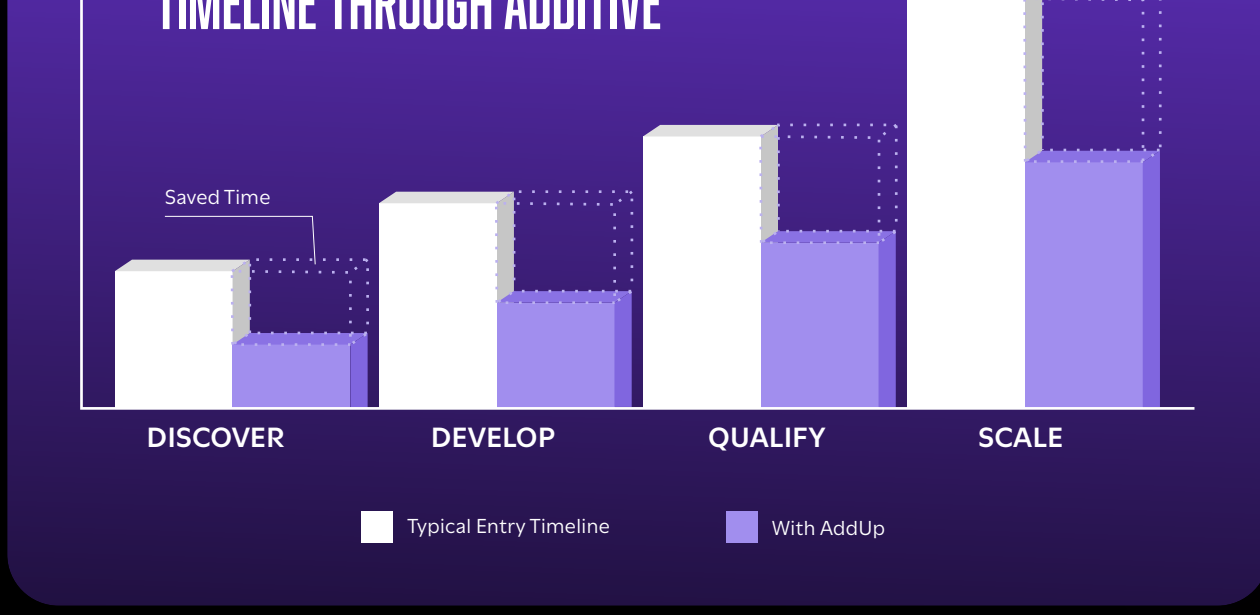

## ACCELERATING YOUR ENTRY INTO ADDITIVE MANUFACTURING

Deciding to take the jump into Additive Manufacturing (AM) is no easy task. There are a variety of aspects to consider not only when it comes to deciding on a technology, but also facility and safety reviews when adding AM into your business.

We walk your Additive Manufacturing journey with you from start to finish. Partnering with AddUp will accelerate your entry into additive. Our expertise, support, and resources will help shorten your pathway to serial production using AM.

## PUTTING YOU ON THE RIGHT PATH

With AddUp as your partner, our team is committed to the success of your project and adapts with your needs. We find the best way for you to manufacture and accelerate your adoption at every stage, getting your applications into the market faster and easier.

## GETTING YOU TO MARKET IN A SNAP

AddUp embraces your individual journey and helps put you on the right path through AM with resources to help you at every stage.

## AM EXPERT ENGINEERS

We take pride in our greatest asset, the AddUp team. Our subject matter experts promptly meet customers' needs by helping them find better ways to manufacture parts.

From start to finish, our team is here to assist you.

- Process Engineering
- Materials Engineering
- Applications Engineering
- Software Engineering
- Design Engineering
- Automation Engineering

## CERTIFIED FACILITIES

AddUp holds multiple certifications around the globe and can help speed up the process of qualifying your part applications with our experience and facilities focused on quality, efficiency, and customer-centricity.

INDUSTRY	QUALITY STANDARDS	AGENCY
Aerospace	ISO9001:2015 / AS9100	FAA
Medical	ISO13485:2016	FDA
Aerospace	ISO901:2015/EN9100:2018	EUSPA
Environmental	ISO14001:2015	EEA

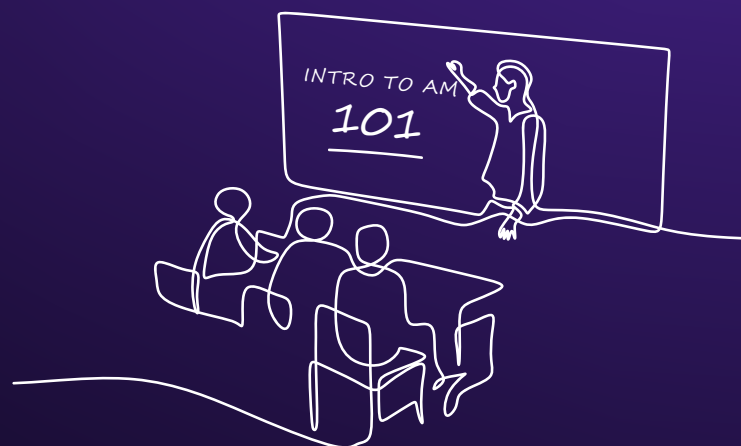

## AM ECOSYSTEM PARTNERS

AddUp supports your additive journey beyond just machines.

We provide comprehensive support throughout your entire process. Whether you're looking to work with a contract manufacturer, find post-processing, or select a powder vendor, we are here to support you for all your additive needs.

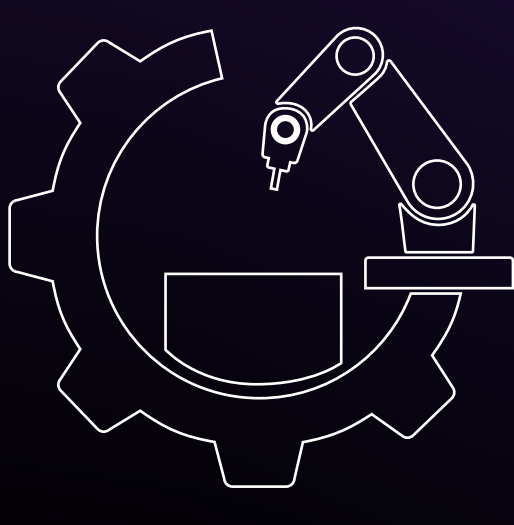

## ON DEMAND TRAINING

Learn from our experts about additive manufacturing or take a deep dive into our technology. AddUp Academy offers tailor made training paths for all levels of maturity on demand for your convenience.

## AUTOMATED WORKSHOP

AddUp has the experience of building fully automated AM workshops. We have worked with customers to optimize their production lines using automation and we are ready to do the same for you.

## MONITORING SOFTWARE

Get the performance, flexibility, and precision you need. AddUp offers an industrial software solution to exploit the full potential of our machines.

Our software provides a full view of everything from part preparation to simulation of constraints, machine control, traceability and production reports. Every link of the AddUp digital chain offers a high level of performance with complete ease of use.

## OUR TEAM IS HERE TO HELP

- Assess if AM is right for you
- Learn Design for Additive Manufacturing (DfAM) and develop applications
- Qualify for AM processes and meet industry standards
- Ramp up production to full scale in your facility or a partners
