

CONSULTING SERVICES

UNLOCK THE FUTURE OF 3D PRINTING EXCELLENCE

With our LevelUp consulting service, our team is dedicated to driving your success in additive manufacturing. Whether you're new to 3D printing or looking to overcome challenges in your current operations, we provide expert guidance from project launch to production scale-up. Our services cover critical areas such as design optimization for your applications, machine performance, and industrialization, ensuring a smooth transition through every stage.

STAGE: START

CREATE APPLICATIONS THAT GENERATE REAL VALUE

The right first step is crucial in your Metal Additive Manufacturing journey. Our consulting team can:

HELP YOU IDENTIFY ELIGIBLE PARTS IN YOUR PORTFOLIO

NAVIGATE OPPORTUNITIES AND CONSTRAINTS OF METAL 3D PRINTING

DEFINE OPTIMAL PROJECTS TO LEAD MARKET INNOVATION

PROVIDE QUALIFICATION SUPPORT FOR YOUR APPLICATIONS

STAGE: LAUNCH

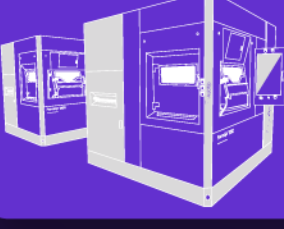

BECOME AN EFFICIENT & AUTONOMOUS USER OF YOUR MACHINE

Empower your employees with confidence in your process and machine. We help with:

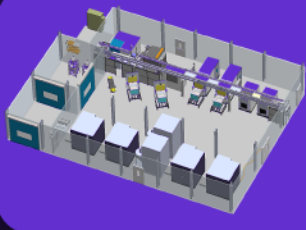

OPERATING WITH CONFIDENCE

After installation and training, we help your team achieve autonomy, safety, and productivity with your machine.

WORKSHOP-AS-A-SERVICE

If leasing production, we guide you in choosing the right machine, partners, and suppliers for seamless operations.

DESIGNING YOUR IDEAL AM WORKSHOP

Leverage our expertise in creating custom AM workshops for various needs—whether industrial, academic, indoor, or outdoor.

STAGE: SCALE

EXPAND YOUR VISION & GROW YOUR BUSINESS

Advance and strengthen your process with optimization and upgrades.

SUPPORT AS YOUR BUSINESS GROWS

- Upgrading Equipment
- Material Swap
- Machine Movement

PRODUCTION OPTIMIZATION

- Process
- Application
- Material
- Quality
- Energy

TAILORED CONSULTING SOLUTIONS YOUR A LA CARTE PATH TO SUCCESS

Our deep understanding of the AM landscape enables us to navigate complex challenges and deliver innovative solutions tailored to your specific needs.

At any stage, whether you're looking to optimize production processes or enhance product quality, we are uniquely positioned to help you overcome obstacles and achieve your goals efficiently and effectively.

Let us leverage our extensive experience to drive your success in the ever-evolving world of additive manufacturing.

20+
years

Supporting customers around the globe daily in their production of thousands of critical components
